Products for Municipal & Industrial Utility Applications

Vancouver • Calgary • Edmonton • Saskatoon • Winnipeg • Toronto • Montreal • Halifax

Designers and operators of municipal and industrial utility water and wastewater systems put rigorous demands on their pumping equipment. The duty cycle is continuous and budgets are tight, therefore requirements for reliability and low costs of operation are mandatory. Listed below is a summary of the products we utilize to solve these demanding applications.

Our company provides one of the most complete and comprehensive ranges of pumping equipment for all water and wastewater applications. Many of these products utilize innovative technology and all are produced by world-class manufacturers, and backed up by our parts and service personnel operating from eight facilities across Canada.

For over 40 years, we've been selected to supply equipment for hundreds of cities, towns and villages across Canada and industrial plant sites around the world.

Acquired by DXP Enterprises company in 2013, Natpro (National Process Equipment) is part of the world's largest pump and compressor distribution company.

Our sales and applications engineers are ready to put our experience to work on your next application—whether it's basic equipment or one of our fully pre-packaged turnkey systems. Give us a call today!

Product	Flows to	Heads to	Comments
Water Treatment Plant & Distribution System Products			
Pentair Fairbanks Nijhuis, Layne/Vertiline lineshaft vertical turbine and propeller pumps	1,000,000 GPM (227,000 m ³ /hr)	7,000 ft (2,133 m)	Open and enclosed lineshaft, settings to 700 ft (250 m)
Grundfos submersible turbine pumps	1,000 GPM (230 m ³ /hr)	2,300 ft (700 m)	Corrosion resistant materials, motor sizes to 500 hp. Well sizes 4 inch and larger
Pentair Hydromatic self-priming pumps	800 GPM (182 m ³ /hr)	230 ft (70 m)	Up to 10 in electric or engine drive
Pentair Fairbanks Nijhuis & Aurora horizontal and vertical split-case and end-suction pumps	75,000 GPM (17,000 m ³ /hr)	700 ft (213 m)	High efficiency, rugged features
Milton Roy & LMI metering pumps and chemical injection systems	2,650 GPH (10 m ³ /hr)	15,000 psi (103,000 kPa)	Complete packaged chemical injection systems. Proteus series are NSF61 Certified
Graco peristaltic hose pumps	290 GPM (66 m ³ /hr)	217 psi (1,496 kPa)	Available in 10 different sizes with a wide variety of hose elastomers
NOV progressive cavity pumps	1,025 GPM (233 m ³ /hr)	1,500 psi (10,300 kPa)	For sludge and polymer feed systems. Replacement parts for other manufacturers
Sundyne Ansimag & Kontro sealless, PumpWorks Industrial sealed chemical pumps	6,500 GPM (1,476 m ³ /hr)	800 ft (244 m)	Stainless steel and non-metallic sealless chemical pumps for sodium hypochlorite, caustic, acids and other chemicals
WEMCO Pumps - recessed impeller, screw centrifugal, non-clog, self-primer, chopper pumps in horizontal and vertical configurations; submersible & immersible	18,000 GPM (4,089m ³ /hr)	230 ft (70.1m)	For raw sewage, screenings, clarifier scum pits, primary sludge, RAS and WAS, digester and thickened sludge, chemicals, abrasives and fluids with solids.
WEMCO Hydrogritter - cyclone grit removal and dewatering system; portable skid and wheel mounted packages, available in steel, galvanized and stainless steel.	1,570 GPM (357 m ³ /hr)	20 psi (1.37 bar)	Proven ability to remove fine grit (+150 mesh), extensive working life, includes cyclone and classifier

Packaged Systems

Natpro can package any pump, blower, or compressor custom to your needs. We can design, build, provide quality control and commissioning assistance on your next project:

- **Sewage lift stations** with fiberglass, steel or concrete sumps.
- **Chemical feed metering pump systems.**
- **Turnkey water booster systems and low pressure sewer pumping packages.**
- **Fire pump systems** UL/ULC/FM, horizontal and vertical.

Product	Flows to	Heads to	Comments
Wastewater Collection & Treatment Plant Products			
Pentair Fairbanks Nijhuis & Aurora horizontal and vertical sewage and sludge pumps	140,000 GPM (31,800 m ³ /hr)	210 ft (64 m)	Solids handling to 6 inch diameter, exceptionally rugged design features
Pentair Fairbanks Nijhuis vertical turbine solids handling pumps	30,000 GPM (6,800 m ³ /hr)	110 ft (33.5 m)	Unique alternative to wet well/dry well designs, highly-efficient
Pentair Fairbanks Nijhuis, Hydromatic submersible, grinder and self-priming wastewater pumps	25,000 GPM (5,700 m ³ /hr)	270 ft (82 m)	Fully packaged sewage lift stations also available
Graco peristaltic hose pumps	290 GPM (66 m ³ /hr)	217 psi (1,496 kPa)	Available in 10 different sizes with a wide variety of hose elastomers
NOV progressive cavity pumps	1,025 GPM (233 m ³ /hr)	1,500 psi (233 m ³ /hr)	For sludge and polymer feed systems. Replacement parts for other manufacturers
Milton Roy & LMI metering pumps and chemical injection systems	2,650 GPH (10 m ³ /hr)	15,000 psi (103,000 kPa)	Complete packaged chemical injection systems. Proteus series are NSF61 Certified
WEMCO recessed impeller, screw centrifugal, non-clog, self-primer, chopper pumps in horizontal and vertical configurations; submersible & immersible	6,000 GPM (1363m ³ /hr)	230 ft (70.1m)	For raw sewage, screenings, clarifier scum pits, primary sludge, RAS and WAS, digester and thickened sludge, chemicals, abrasives and fluids with solids
WEMCO Hydrogritter - cyclone grit removal and dewatering system; portable skid and wheel mounted packages, available in steel, galvanized and stainless steel	1570 GPM (357 m ³ /hr)	20 psi (1.37 bar)	Proven ability to remove fine grit (+150 mesh), extensive working life, includes cyclone and classifier

Compressed Air Systems

Quincy air compressors, vacuum pumps and instrument air packages	1,500 CFM (43 m ³ /min)	500 psi (3,450 kPa)	Reciprocating and rotary screw with lubricated and oil-free designs.
Hoffman Lamson centrifugal blowers, exhausters and engineered vacuum systems	41,000 CFM (70,000 m ³ /hr)	23 psi (158 kPa)	Turnkey packages for process vacuum and compression
Nash, Garo liquid ring vacuum pumps and compressors, process and vapour recovery included	23,000 CFM (39,000 m ³ /hr)	150 psi (1,034 kPa)	Turnkey packages for process vacuum and compression
Parker Zander, Zeks compressed air and gas filtration, drying systems and oil/water separators	as required	as required	Advanced technology, energy saving systems

Specialty Equipment

Pentair-Aurora / Vertiline Fire Pumps – DXP-Natpro also manufactures complete package Fire Pump systems with full piping, electrical, HVAC and controls with insulated building and accessories. Capacities up to 7,500 GPM (1,703 m³/hr).

Crisafulli – high capacity pumps and lagoon pumps, various drives, dredges.

Milton Roy Side Entry Mixers – For storage and blending. Mixer equipped with 4 bladed Sabre® Impeller. Up to 1.3M BBL (200,000 m³).

Portable Equipment

Engine driven trailer-mounted self-priming and standard centrifugal/diaphragm pumps.

Service & Repair

System engineering analysis, field and shop repair or modifications to any make of existing pump. Service contracts are also available.
